SECRETARY SEWARD'S SPENCH

HE SUPPORTS THE PRESIDENT WHAT THE COUNTRY IS IN NEED

RECONCILIATION BETWEEN THE NORTH AND SOUTH,

Aquery, May 22.
Gov. Seward undressed an immense meeting of the citizous of Auburn, assembled: at Corning Hall, this evening. The meeting was organized by the appointment of Mayor Powler as President, with thirty-six Vice Presidents. A Committee of three was appointed to wait upon the Governor and conduct hild for the fault. The Governor was received with enthusiastic ampliance.

Governor and conduct blat for the half. The Governor was received with enthiastic applanae, and proceeded to address the audience as follows:

Mr Good Farends—Your, kind huportunity will not avail me as an excuse for speaking if I ought to keep silence. Perlaps, however, the solicitude which pervades the country may justify as all in conversing upon political questions, in a candid and purifold spirit. We were together here in October last. The national condition has undergone some material changes since that time. We were then on-the very of a ceries of elections throughout the diaties. The lenders, who so pertinacionally claim to the Democratic, that time. We were their on-the verge of a series of elections throughout the dates. The lenders who so pertinaciously claim to be Democratic-prognized with their customary machinery find orations. They had wisely coased, to denouise in failure the war for the Union, which had it, ast become a glorious success. They thought to undermine the distinctive party of the Union, ye effecting a new-born admiration of its Chief, andrew Johnson. They seemed anxious to rover their devotion superior to ours, by committing themselves to support birm as a candidate or the Presidency in 1868. They insertibed our diministration matters of reconciliation upon Democratic leaders to make this charge, was the mary alous phenomena, which was just then exhibited in the seene of the rebellion. The whole dialoyal community in that blighted and desolated region, accepting the conditions of partial annessty and the invitations to returning allegance which were proclaimed by the administration, all nt once roused the principles, practices and policy of Secresion and Disminion; they tendered us a new covenant of loyally, sealed with their outlas and brought forward with alacrity the remains of this long cherishic institution of sinvery, and chestfully threw them to be hurned upon the constitutional alact which they had so newly restored. These unexpected charges in the attitude of political adversaries, once so obstitute, naturally enough excited suspicious, igalustics and appréciousium among loyal and naturally enough excited suspi-is and apprehensions among loya-tion men. It was the old case of

those which sometimes attend popular elections in every free country in a time of profound nears, the heretotore disloyal people of Virginia, Tennessee, North Carolina, South Carolina, Georgia, Arkunsus, Mississippi, Lonislana, Ploridaund Texas successively, asye, almost simultaneously assembled, and adopted new constitutions in conformity with the Constitution of the Uniin conformity with the Constitution of the United States. They rejected rebellion with all its for spreading roots and all its poisonous fruits, and they excepted and ratified the then pending Configuration and amendment of the Constitution of the United States, which abulished stavery then, theneforth and Jorewer. The pople of those States have at the same time chosen for themelies by the next property of the section of the configuration of the section of the sectio States have at the same time chosen for themselves by free and uncontrolled suffrage, Governors, Legislaters, Judiclasies and municipal authorities. Between the Federal government and these restored and reorganized State governments, there exists now a more complete and practical harmosy thin has ever before prevailed between the Union and so many of its members since it was first established. Within the same time, the Exective Department of the United States has resumed its fenctions among the prople of those former dislayal States. The State Department speaks for them with their free consent to principalities and powers; the Treasory collects the national imports and taxes; there the War Department distributes its forces whenever and wherever its seems necessary or expe-

and party, or at the hands of another. I reason, and the same way in regard to reconciliation and peace. I expect that, a year letter, I shall be found to be right now, as I am now admitted to have been right one year, two years, three years ago. I do not think, however, that there is any necessity for separation to tween the there is any necessity for separation to tween the there is any necessity for separation to tween the three is any necessity for separation to tween the tracking of the last summer, were only templorarily always in inflamatory debates in the press and proper assemblies. I admit that the Nithtonal Union party in Congress has as yet been ambbe to accept or reject the gouncels of the President. A wide and enduring separation cannot, low-cover, he made between Congress and the President, without taving for its groove a serious difference upon some cardinal political question. At this point, it will be will to sectle for our selves what it is that we are dealing to see effected by the President and Congress. We ultimous that it is that we are dealing to see effected by the President and Congress. We ultimous this particular portod, but of our selves what it is that we are dealing to see effected by the President and Congress. We ultimous additional content of a dislocated, at least a disturbed and clustered country. We cannot require more, even if more were deal rable, yet that more is desirable, and must be the study and the work, not of ourselves at his particular period, but of our selves for our successors hereafter. What then, does the country actually need? Moss persons say, reconstruction, I think it needs no such thing. The country is constructed already it was constructed already it was constructed a little of the large of the production. I think it needs no such thing. The country is constructed already it was constructed a least of the

years were deringed and disorgunized quality in their internal structure in their constitutional relations to the Union. They have, however, been since that time reorganized. Their organized overs and functions have been removed, and they have resunced their constitutional relations of allegiunce, to the Union. What, then, does of the major need? It needs just what I have dwelt upon so hatch and so carnestly in these remarks! It needs reconciliation, and just now needs nothing more. It needs, introduce a media nothing more. It needs, introduce a media nothing more. It needs, introduce and media nothing more.

the same kind between numbers of the House of Representatives who, are now acting, and loyal members already elected, or to be elected, by the people in the same before-mentioned States, it needs just this Congressional reconciliation and nothing more. Of course, I recognize the fact that the separation which exists between the acting Senators and acting Representatives who are already or may herender be elected in the Southern States, is understood to indicate a corresponding alternation between the constituences of those parties respectively, but this does not affect the ylew I have taken of the case. It was constructed in 16%. As then constructs it was a union of thirteen, show multiplied thirty-six free, equal, separate, self-acting, an in regard to internal affairs, self-governing states. We do not reconstruct that which it not been destroyed. There has indeed been attempt at destruction, but it has falled. Thought a stein of 1787, constructed by our fer inthers, stands now firm, compact, complete an perfect, just as it came from the builders' hand it was constructed not for eightly years only, in yet for a time of peace only, nor for a period, civil was only, but for all alger and for of time. It needs a reconciliation between the Senators of the United States who are now neign, and those Senators who; being loyst and qualified for the nembership of the Senate, have been already, or may horeafter be, elected by the people of the several States which were lately in rebellion. It needs a reconstruction of

clief? The Fresident's position is absolutely it sken, well-defined, and universally anderstood. It is this namely, that so are and so fast as the unrepresented States represent themselves in a toyal attitude by representatives unjectionably loyal they are entitled to representation in Congress equally with all other States and just as well as if there had been no irrebellion. The Representation in Congress do not yet agree with the Fresident, but I think they differ only integrard to non-essentials. Some are understood to insist that the people of no State onght to reserve the right of secession or distributed that the people of the State of the rebellion. The Fresident says excellent which is the same thing. A State that should calm to reserve a right of succession could not be toyal. Others contend that after rebellion a State ought not to be accepted which insists upon or admits the validity of the dotts of the rebellion. The President says excession the validity of such dotts could not be loyal. Others argue that, as a consequence of the abolition of slavery, a change of basis of representation has become desirable and necessary. This can be done only by amending the Consistent of the Tresident says manding the representation of the Vinited States. While Congress are yet unable to agree among themselves when the form of such an amendment, the President server in the form of such an amendment the President server.

DEDICATION OF THE MATRODIST EPISCOPAL CHURCH AT PITHOLE CITY .- The Dedication Exercises of the Methodist Episcopal Church at Pathole City will take place, on Sanday next at 1034 a.m. Bishop Simpson of Philadelphia will

deliver the sermon This church was founded in August last and

of the year 1865. We gave a full description of the plan and specifications in the HERALD before prection. It is one of the fluest collices in the oil region, and reflects credit upon the liberalitr of the citizens of Pithole, who contributed to it, without distinction of class or sect. Rev. D. S. Steadman, who was the Pastof from the commencement is still in charge of the church. The membership is small, but the congrugation [4 Rev. Mr. Simpson is one of the ablest and most eloquent divines in the Amerifuneral discourse of President Lincoln at Springfield. If the weather is agrecable, no doubt many of our citizens will embrace this eccasion to hear Bishop Simpson, and we presum there will be a large attendance from the surounding towns. PERMISON MARKETS.

Tiresville, May 25. The petroleum markets are unchanged from our pre-vious quotations. Crude is reported to be offering in Oil City at \$1.75 per barrel. The Pittaburgh, market being overstocked without any domaind, makes it a leaving huminess to ship oil in that direction. The consequence is that the only alternative for producers is to send their oil this way. We hear of several offers to deliter oil on the platform here at \$4.75, but without any buyers. This is equivalent to \$5.75 at the wells. Operators are amoding in a position of the greatest uncertainty, not having confidence enough to move. In the manufameour producers are showing evident segment of giving way. Each day brings in offers to acil at lower figures. There is me saying what oil can be bought for:; The quotations are therefore merely nominal.

At any moment we may have advices from Enwhich will send the market either up or down. If the financial crisic is likely to blow over, or the war cloud pursue away, there may be hope for our fall trade; but where the markets will go, with the immense accum

The production, although falling off in some localities is increasing in others, and the prevailing opinion on this point appears to be, that before fall it will be on the increase. Castle Brothers and THE HERALD Office. A PETITION TO CONGRESS POR THE RELIEF OF

In the language of the paper the reasons which prompt the petioners to ask this testimonial at the hands of Congress are, that it is through his genius, enterprise, perseverance and cost of cap-ital and labor to his own injury, the country at large now enjoys to such vast extent the benefits and comfort, and the Government its large income of millions of annual revenue. In 1858 Mr Drake was the first, umided and alone, to test the experiment of mining for petroleum in the
